Count of plates is almost 500. Is 500 the cutoff?

Historically, HMOP would shoot to make food for 700. Sometimes day-of sales would range 50-100 on average but has gone over to about 150. Leftover plates would get bagged and auctioned off. This year the food is only making to hit 500. Helps to have a few plates for day-of especially for those that come to Imi Pono but no longer have a direct connection to order ahead of time.

Some papa are looking to also fundraise with mea'ai. HMOP Snack Shack is going to sell candy chips drinks to help reach our \$20k, but a papa could take that over...?

Kula waena to sell spam bowls and fruit kabobs instead of hamburgers.

HMOP to buy 50 plates for day-of sales

\$3500 is pre-approved for HMOP

550 is the total plates HMOP is ordering.

Green/flower drop off day before.

because lately weather questionable, setup and decorating is morning of. Same layout as last year with vendors on blacktop and "stage" in front of the mural with the wa'a (A bldg). Plates and vaifala in cafe.

Tomorrow Imi Pono meeting and last one next week!

Admin Report

Topic: OHE funded positions

2 OHE FTE positions for kula ha'aha'a

1 OHE FTE position for Castle

Is another position necessary for papa8-9

Need will be determined by Castle complex leadership

This plan is not what HMOP was informed and on board with. Poo: then involved parties need to meet asap.

Kaui:

2022-23 SY 2nd kumu position is year to year and based at Castle. Same as 1st kumu position which was moved to Puohala but WSF funds covered kumu for the year so the position was returned to OHE.

? Can positions go to Pū'ōhala? Or is it prevented because in the system Pū'ōhala is K-8 only. Or can a position from Castle be used at Pū'ōhala as a satellite?

Seems like a repeat of last time when papa 9 was to start. Castle was not prepared and lacked support like curriculum and planning.

Castle seems unfit to house Kaiapuni along the FAFKE guidelines. Is it a right move for OHE to put a position there if Castle/admin there are not aware or using FAFKE.

Poo:

One obstacle is Pū'ōhala is not an accredited high school so poo cannot position as high school teacher. He has to hope they see it in the Notes for the "Elementary" position.

Also want to be sure our credits are recognized for college, etc.

What obstacles specifically need to be overcome?

The value of innovation, culture, and FAFKE at Pū'ōhala outweighs anything Castle can offer right now. To quote Keoki, "this culture (at Pū'ōhala) was not built overnight". It took a long time and space to build Pū'ōhala's culture.

WASC accreditation comes up in 2023. Site visit will be May 6-9, 2024.

Poo: will email CAS for availability and get back to us. Might need to meet regardless of CAS' response.

SCC
